Dr. Maki Koyama is an Associate Professor in River Basin Research Center at Gifu University, Japan. She received B.Eng. and M.Eng. degrees in Computer Science and Systems Engineering from Yamaguchi University (Japan) in 1996 and 1998, respectively. In 2004, she earned a D. Eng. degree in Built Environment, at Tokyo Institute of Technology (Japan). Her research is focused on mechanism of human casualties and building disaster resilient communities. Her research interests are multidisciplinary and cover a wide range of academic fields, including earthquake engineering, computer science, education, social science, health science and psychology.

## Education

Apr 1991 - Mar, 1996 B. Eng., Yamaguchi University Faculty of Engineering Department of Computer Science and Systems Engineering

Apr 1996 - Mar 1998 Yamaguchi University Graduate School of Science and Engineering Dep. Of Computer Science and Systems Engineering

Apr 2001 - Mar 2004 Finished Ph.D. program without dissertation, Tokyo Institute of Technology Interdisciplinary Graduate School of Science and Technology Department of Built Environment

Jul 2004 - Jul 2004 Dr. Eng., Tokyo Institute of Technology Interdisciplinary Graduate School of Science and Technology Department of Built Environment

## Field of Study

Inclusive, Human resource development, Disaster Proactive, Disaster Mitigation, Disaster Prevention, Human Casualty, Seismic Intensity, Earthquake Protection, Emergency Information Science, Livable City
